

<u>Strategic Area</u>	<u>Priority Goal</u>	<u>Action Items</u>	<u>June 9, 2017 Report</u>
I. Promote the infrastructure needed to support the Mission and Vision of the Center for Nursing (CNR)	A. Identify the infrastructure available to support the Mission and Vision of the CNR	1. Determine the human infrastructure that is available to support the CNR (i.e. who are the stakeholders)	Representative groups have been identified Strategic Planning committee;
		2. Determine the technological infrastructure that is available to support the CNR	website has been re-designed; TCC held
		3. Determine the financial infrastructure that is available to support the CNR	Endowment continues to be a goal
		4. Report to CNR membership at Annual Meeting	Currently being done
	B. Examine the need for infrastructure to support the Mission and Vision of the CNR	1. Examine the human infrastructure that is needed to support the CNR; make recommendations to the Foundation Board of Trustees	Will need to seek Research Specialist
		2. Examine the technological infrastructure that is needed to support the CNR; make recommendations to the Foundation Board of Trustees	Continue to use and develop website
		3. Examine the financial infrastructure that is needed to support the CNR; make recommendations to the Foundation Board of Trustees	Continue to seek endowment
		4. Report to the CNR membership at Annual Meeting	To be done annually

II. Facilitate collaboration among all members in the CNR to promote sharing of expertise, mentoring of novices, and coordination of resources

A. Facilitate collaboration among all members in the CNR to promote sharing of expertise

1. Conduct annual meeting
2. Conduct Leadership Team meetings
3. Conduct meetings of committees
4. Post minutes of committees on CNR portion of the website
5. Post Strategic plan on CNR portion of website
6. NYS E-Repository of Nursing Scholarly Works

Will be continued  
Scheduled every 2 months

Done electronically

Has been done

Being done

Done and populated with abstracts

B. Facilitate collaboration among all members in the CNR to promote mentoring of novices

1. Actualize CNR Research Fellow program
2. Identify opportunities for novices to be mentored i.e. regional conferences

Fellow chosen yearly

EBP workshop 6-2017

C. Facilitate collaboration among all members in the CNR to promote coordination of resources i.e. time, expertise, funding

1. E-Repository – See Strategic area 4
2. Conduct annual meeting
3. Develop strategies for coordination of resources
4. Explore feasibility of using C-Vent to facilitate collaboration

Space for each Regional Alliance

Has been done annually  
Reports from Regional Alliances at Leadership Team meetings

III. Promote learning opportunities for nursing students and professional nurses to enhance their understanding of research and their ability to apply research findings to practice

A. Promote/identify leaning opportunities for nursing students and professional nurses to enhance their understanding of research and their ability to apply research findings to practice

1. Identify learning opportunities for nursing student to enhance their understanding of research
2. Identify learning opportunities for nursing students to enhance their ability to apply nursing research findings to practice
3. Identify learning opportunities for professional nurses to enhance their understanding of research
4. Identify learning opportunities for professional nurses to enhance their ability to apply nursing research findings to practice.

Post programs on website; offer opportunities for writing; EBP workshop

Develop Clinical Practice Implementation and above

CPI Award; ANA-NY newsletter columns; EBP workshop; Research Fellow program

All of the above

B. Create learning opportunities for nursing students and professional nurses to enhance their understanding of research and their ability to apply research findings to practice

1. Create leaning opportunities for nursing students to enhance their understanding of research
2. Create learning opportunities for nursing students to enhance their ability to apply nursing research findings to practice
3. Create learning opportunities for professional nurses to enhance their understanding of research
4. Create learning opportunities for professional nurses to enhance their ability to apply nursing research findings

EBP workshop

EBP workshop

Research Fellow program; writing ANA-NY columns; website posting of programs; EBP award

All of the above

C. continue to provide a venue for professional nurses who have received recognition for nursing research and EBP

1. Continue process for Distinguished Nurse Researcher award
2. Continue process for Rising Nurse Researcher award
3. Continue process for EBP award
4. Publicize winners of grant funding
5. Encourage submissions to the NYS e-Repository
6. Encourage publishing on Foundation website
7. Encourage publishing of ANA-NY nurse news

DNR chosen biennially

RNR chosen biennially

EBP chosen biennially

Have on website

Have tab on website

Dissemination Committee takes flyers to national and regional programs

Have continued all year

D. Explore the feasibility of creating a post-doctoral fellowship

1. Create an ad hoc task force to explore feasibility

IV. Promote the dissemination of research findings and best evidence-based practices to members for the nursing profession and the community at large

A. Catalogue/inventory current research and EBP activities with in New York State

1. Create online lookup capability on the Foundation website for an inventory of current research and EBP
2. Develop process for submission and posting approval
3. Pilot the online lookup inventory product
4. Go live with the online lookup inventory product
5. Utilize available email lists of nursing leaders, educators, organizations, etc. to solicit materials for the inventory lookup
6. Continue to investigate the opportunity to publish original works on the website
7. Link to national and evidence-based practice repositories as appropriate

NYS e-Repository is up and running; Dissemination committee publicizes and encourages submissions; Staff also takes flyers to events

B. Promote dissemination of research findings, EBP practices, etc.

1. Market repository

Continues to be on-going

C. Develop a mechanism to regularly inventory NYS EBP activities

1. Create a mechanism for inventory of EBP activities
2. Conduct statewide inventory of EBP activities within specialty practices
3. Communicate findings through the e-Repository

Need to re-evaluate feasibility
